## EDUCATION

---

### Vindhya Institute of Technology & Science

Bachelor of Technology in Computer Science and Engineering | CGPA: 8.38/10.0

Satna, Madhya Pradesh

Aug 2023 – May 2027

## TECHNICAL SKILLS

---

**Languages:** JavaScript, Java, C++, Python, SQL, HTML5, CSS3

**Frontend:** React.js, Redux, Tailwind CSS, Bootstrap, Material-UI, Responsive Design

**Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication, WebSocket

**Databases & Tools:** MongoDB, MySQL, Git, GitHub, Postman, npm, Vercel, Netlify

## PROJECTS

---

### ChessMaster - Real-Time Multiplayer Chess Application | *React.js, Node.js, MongoDB, Socket.io* [Live Demo](#)

- Engineered full-stack chess application with real-time multiplayer functionality supporting 100+ concurrent games using WebSocket technology and optimized React state management
- Implemented complex game logic engine with move validation, check/checkmate detection achieving 99.9% accuracy
- Built responsive UI with drag-and-drop functionality and sub-100ms latency for seamless gameplay experience
- Developed RESTful APIs with Express.js and MongoDB for user authentication and game history tracking

### E-Commerce Platform with Admin Dashboard | *MERN Stack, Redux, JWT, Payment Integration*

- Developed scalable e-commerce platform with product catalog, shopping cart, and secure payment processing
- Created admin panel for inventory management with CRUD operations and real-time stock tracking for 1000+ products
- Implemented JWT authentication with role-based access control securing user data and admin functions
- Optimized MongoDB queries with indexing and pagination reducing API response time by 60%

### Task Management System | *React.js, Node.js, MongoDB, Redux Toolkit*

- Built collaborative Kanban board with drag-and-drop interface supporting team workflows for 50+ users
- Implemented real-time notifications using WebSocket for instant task updates and activity feeds
- Designed RESTful API with filtering, sorting, and search handling 10,000+ tasks with indexed queries

## ACHIEVEMENTS & ACTIVITIES

---

- Solved 300+ Data Structures and Algorithms problems across LeetCode, HackerRank, and CodeChef platforms
- Active open-source contributor on GitHub with 200+ contributions and well-documented personal repositories
- Completed certifications in Advanced JavaScript, React.js, Node.js, and MongoDB from Udemy and Coursera
- Technical blog writer sharing full-stack development tutorials reaching 1000+ monthly readers

## PROFESSIONAL SUMMARY

---

- Computer Science student with expertise in MERN stack development and hands-on experience building scalable applications with focus on performance optimization, system design, and delivering exceptional user experiences
- Strong foundation in Data Structures, Algorithms, DBMS, and software design principles with proven ability to implement complex application logic and RESTful APIs for production-ready applications
